

Directions to Wiggins Launch Site

Here are two options on how to get from the Colorado Front Range to the Wiggins launch site.

Option A:

If you have an in-vehicle GPS navigator, you can load this address in.

217 Main St., Wiggins, CO

The address is for an eatery called “Just One More.”

- You'll approach ‘Just One More’ after you cross some railroad tracks. Once you see the place, forget the directions the navigator is giving. Continue south about 300 ft. to the intersection with 3rd Ave.

- If you're with Metro State, cross 3rd Ave., continue south another 200 ft. and turn right into the parking lot just past the basketball/tennis courts.
- If you're part of the EOSS launch/ground station/flight string prep/management team, turn right onto 3rd Ave. Then a left onto Chapman St. and into the lot on the left.

Option B:

From Colorado Front Range

- Drive northeast (NE) on I-76.
- Leave I-76 at Exit 64.
- At the top of the exit ramp go straight across County Road 300 and continue NE.
- The road name will become Central Ave. and in less than a mile you'll enter Wiggins.
- Go about a quarter mile and then take a right onto Main St.
- Go over the railroad tracks.
- Continue south until you reach 3rd Ave.
 - If you're a student, a Metro state faculty member, or a family/friend of Metro student continue south another 200 ft. and turn right into the parking lot just past the basketball/tennis courts.
 - If you're part of the EOSS launch/ground station/flight string prep/management team, turn right onto 3rd Ave. Then a left onto Chapman St. and into the lot on the left.
